

Scope of the Project

For the next three years (2007-2010) the goals of the Varsity Club are to complete the Athletic Complex:

- Build a new entry from the high school side of the complex which will include a paved walkway to the new HOME side of the stadium, an entry structure that will include a ticket booth, concessions area, restrooms, team meeting rooms and storage.
- Move the HOME side of the football stadium to the west, nearer the new high school
- Make the necessary improvements to the track and field arenas
- Erect new HOME side bleachers
- Finish the improvements to the baseball and softball fields
- Install soccer fields

How to Help:

Make a cash donation in any amount.

Cash is the most helpful. 100% of every dollar donated goes into the project. Everyone working on this project is a volunteer. There is no overhead.

Donate building materials.

Donate your labor:

Are you a mason, plumber, electrician? Can you paint, install flooring or interior fixtures? We can use the help.

Buy a brick!

Or a bleacher seat or organize a class memorial.

Be a part of the stadium forever!

Milan High School Athletics Complex Capital Campaign

"We have the obligation and responsibility to maintain and extend our fine traditions."

I am interested in contributing to the Milan High School Athletics Complex Capital Campaign:

_____ Donation in the amount of \$_____

Sponsorship Levels
